

Always dreamed of an additional oven or alternative fuel type?

Renew

There are many good reasons to install a brand new AGA. While all AGA's have the iconic cast-iron design they've always enjoyed, the technology beneath has advanced significantly. So if your AGA has seen better days, you want an additional oven or two or you'd like to change the fuel type, it's well worth taking advantage of our great trade-in offers. Plus, we'll take away your old AGA and recycle it, so it continues to live on.

To find out more about this fantastic opportunity, contact our AGA service department on: **0116 242 9399**
